Subject: RE: Juneau County Groundwater Investigation Data

We won't be sending a spreadsheet to WDNR. Instead, we will share a link to the website. I will work with Jennifer O on getting the link.

OK. I don't think we will be ready until Thursday. We would need to work out talking points in a short period of time (next week)

Subject: RE: Juneau County Groundwater Investigation Data

Thanks, Pat. I called Jim Zellmer a few minutes ago about whether they want the data now in spreadsheet form while we complete the website. Hopefully, I'll hear back today. If I don't, I don't think there is any harm in sharing the spreadsheet, but give it until 4pm. Regarding releasing it to the public no later than 7/16, on the call with Jim Payne, Pat Stevens and Jim Zellmer, I said that was our goal, but all of us agreed that we needed to have a conversation about what we think the data means and coordinate on talking points so our messages are consistent. So, I would revise your message to Jim as follows:

Jim — I have been asked to provide you the data collected in the May 2018 GW investigation in Juneau County. EPA's goal is to release this information in response to a FOIA as well as via EPA website for the general public no later than July 16, 2018. However, we would like to schedule a call with WDNR to answer any technical questions, discuss interpretation of the data, and discuss next steps prior to the public meeting and releasing the data to the public. Let me know who we should work with to arrange the call. Thanks.

WDNR said that folks from WDNR and WDOH will attend the Juneau Co public meeting on 7/17. They didn't identify who will actually attend yet.

WDNR wanted to know if we planned on sharing the data with CSD at the same time we share with the public or anytime earlier. I said I would check with enforcement/ORC and get back to them because I didn't know what our protocol is on sharing data with facilities.

Linda

Subject: FW: Juneau County Groundwater Investigation Data

Chuck, Debra, Linda – WD would like to share the GW investigation with WDNR as soon as possible (Thursday?). We don't know if the website will be ready this week and don't want to wait too long to share the data with WDNR since the informational meeting is fast approaching. We will need to coordinate with WDNR before the informational meeting. Jim Zellmer has been identified as WDNR's POC for this issue. WDNR is planning to be at the informational meeting on the 17th. I believe the WDNR could also share the information with CSD prior to our release of the data to the general public. We should assume that will be the case by sharing it with WDNR. Let me know if you have any concerns with the message below.
